

CASE STUDY

Response of people to Develop "Community Clinic"

Area of Dashtika Community Clinic is situated in Noongola & Nishidara Union of Sadar Upazilla. Before starting work if CCT under the program of SPSRG Grameen Alo enquired about time of incoming & outgoing of the Doctors. What types of medicines are available etc and found that local people have no idea about & hence rebounded from the clinics having no service, So far Grameen Alo organized consultation meetings, orientations. Where services & responsibilities

Of officials are discussed openly. Committee also organizes meeting for consultations. They take initiative to develop slandered of service prepare public certificates besides to take public opinion establish public opinion box.

They attend in the meeting regularly and identify problems regarding structured services rendered with the cooperation of Grameen Alo.

CC officials & Committee members jointly oppresses to the LGED office of Local Upazilla and gets allocation of found for repairing & developmental CC structures.

Presently Clinic remain open from 9:00am to 3:00pm Persons providing service style in the Clinics regularly. Now there prevails as good relation between service providers & service taker. Due to assistance and monitoring of Grameen Alo officials taken active steps and the program became successful.

At present 55-65 persons from very poor families are getting health service & Community service form the Clinic regularly. Local people become aware as the committee is active and the accountability and well manner of officials keeping impacts positively.
