regulations and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the organization's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the organization's consolidated financial réporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

- Our objectives are to obtain reasonable assurance about whether the consolidated financial statements
 as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's
 report that includes our opinion.
- Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in
 accordance with ISAs will always detect a material misstatement when it exists. Misstatements can
 arise from fraud or error and are considered material if, individually or in the aggregate, they could
 reasonably be expected to influence the economic decisions of users taken on the basis of these
 consolidated financial statements.
- As part of the audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the consolidated financial statements,
 whether due to fraud or error, design and perform audit procedures responsive to those risks, and
 obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from error,
 as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
 internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that an appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the project internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Evaluate the overall presentation, structure and content of the consolidated financial statement, including the disclosures, and whether the consolidated financial statement represents the underlying transitions and events in a manner that achieves fair presentation.
